Someday Soon

Natalie Bassingthwaighte

```
Someday soon you're gonna catch that dream you've been chasing
Someday Soon
Someday Soon
Someday Soon
Someday Soon
Out there in the air tonight
It's electric, it's alive
Suddenly you can see right before your eyes
A thousand candles burning bright
Someday soon
You're gonna catch that dream you've been chasing
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonight
Inside feel your heart ignite
It's your time to arrive
Suddenly you can see that it's possible
And I'll be right here by your side
Someday soon
You're gonna catch that dream you've been chasing
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonight
Take a step
One moment
Closer to the magic
It's just one heartbeat away
Don't give up
Embrace it
Breathe it in
Believe it
You know the way
Someday soon
You're gonna catch that dream you've been chasing, yeah
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
You're gonna be a star tonight
Someday soon
You're gonna catch that dream you've been chasing
Someday soon
They're gonna write your name in the sky
All you need is just to believe it
You know you're my hero
