

What I Must Do

Natalie Cole

What I must do to hold you in my hands
Is give you all I have and be right here with you

Something happened on the way
Something I don't want to lose
Stared my heart right in the face
Telling me the truth, telling me it to you

What I must do to hold you in my hands
Is be right here with you
I know that I need to give you all I am
And this time we make it stand, stand right here with you

Of all the things I wanted most
Here you are, the one I need
Now for all the times, I did not know
So let my love go free, now I speak

What I must do to hold you in my hands
Is be right here with you
I know that I, I need to give you all I am
And this time make it stand, stand right here with you

You are the sun, you are the rain
You are the one I'd love again
And I won't ever stop this chance to be with you
No, I won't ever stop, I know what I must do
There's one thing I must do

What I must do to hold you in my hands
Is give you all I am and be right here with you
I know that I, I need to, I need to give this all I can
And this time make it stand, stand right here with you

I'm gonna do that
I know what I must do
I know what I must do
You are the sun, you are the rain
You are the one, I must do

'Cause you are my life, you are my love
I know what I must do
And this I must do for you, I must do that
Said, I'ma gonna do that, baby
I'm gonna stand right here with you
