## **Hold Me Closer**

## **Natasha Thomas**

Games we don't want to play Same winner everyday Kill for the second best Feel no more, feel no less We have our minutes cut We lose our feelings but That's what the movies show This is where stories go Stars we don't want to reach Scars we don't want to stitch Go where we haven't been Fly away, time machine Cloud we will chase him out Crowds, we will face them down This is our secret place Outer space, outer space Our home forever is outer space Black stars and endless seas, outer space You hold your destinies, outer space Forever we'll be in Outer space, outer space

Ground we don't want to feel Found what they didn't steal Time, we were really lost Bridges burnt, fingers crossed

We, shall we ever be free With no guarantee Life on another plane Same before, same again

Go where you want to go So no one ever knows Only what we decide Is it gone Has it died

Dry every tear in my eye You can tell me why This is our secret place Outer space, outer space

Our home forever is, outer space Black stars and endless seas, outer space You hold your destinies, outer space Forever we'll be in Outer Space, outer space

Outer space is where we get together
And this place we're meant to be
Stars are dancing and the time is fading
Dead forever,
You and me,
You and me
Racing stars and common moons are planets
In the cosmos, we are free

There's no atmosphere
And no obsessions
It'll always be
It'll always be
Our home forever is, outer space
Black stars and endless seas, outer space
You hold your destinies, outer space
Forever we'll be in
Outer Space, outer space

Our home forever is, outer space
