

# There She Goes

Nate Dogg

Oh yeah I chill with Nate, Like I did as a youth  
It's still 213, ain't nothin different with Snoop  
Music is the tool I used to leave the hood with  
Became my own man, I wish you would BITCH  
I been around the world and back  
Two times ain't nuthin like home its crackin  
After all the women, the money and the TV shows  
I'm not really tryin to see these hoes

Now AMG said her eyes are the index to her soul  
But when I look at her face, all I see is a ho  
We sex playin, with the Hennessy, and she in the mood  
While y'all see her as a broad dude, I see her as food  
Take her back up to the bar to get her cigarette lit  
I told her, "I be buyin liquour like it Shh.."   
She told me I'm a player motherfu..   
Forget about it, she know the scam  
And now she belly dancin to that Indian Jam  
So hell, I'm a let her get a little more buzzed  
Till she starts to get to slurrin and forget where she was  
Take her purse out to her buddy car, back to the bar  
For another round of drinks with a pla-ti-num star  
I'm gettin conceded, a lil bit, the game owe me  
I've been humble since my first hit, but back to baby  
I'm a rub her on the belly, make her scoot down the couch  
Look her right up in her eyes, and take some food out her mouth, She want it

There she goes, the kind of girl that I wanted always  
My favorite pro, oh I love how she got gangsta ways  
I thought you should know, the way that I want it, I get it that way  
Cant stand it no mo', nobody does it better than she

When I Wake up in the morning, fresh up outta my dream  
I ain't even finish yawning, still as hard as I can be  
Even tho I havent found her, I seen her when I was asleep  
I'm pretty sure that she is out there  
I'm pretty sure that there is some one else for me

Hey ho, Hey ho, now that I found you, I wont look any further  
Hey ho, Hey ho, now that I found you, I wont look any further

There she goes, the kind of girl that I wanted always  
My favorite pro, oh I love how she got gangsta ways  
I thought you should know, the way that I want it, I get it that way  
Cant stand it no mo', nobody does it better than she

The first time I ever saw her, I couldnt look her in her face  
I tried hard to ignore her, but I couldnt walk away  
When I finally got the courage, I couldnt think of what to say  
To make a long story shorter, I better bust a different way  
I was at the park one day, thats when I saw her face  
She was kinda cavi to me  
Had some nigga hangin on, I sent that busta home  
And now she ridin with me.. THERE SHE GOES!!!

There she goes, the kind of girl that I wanted always  
My favorite pro, oh I love how she got gangsta ways

I thought you should know, the way that I want it, I get it that way  
Cant stand it no mo', nobody does it better than she
