

Put Your Arms Around Me

Natural

How am I supposed to wait, when the nights, last forever?
When am I supposed to stop, missing you, when I know ill never?
Times moving slowly, im standing still.
Come back and say that you will...

Put your arms around me
Your the one and only
I'll be here if u let your heart show the way.
Come lay down be beside me
Put your arms around me.
I'll be here when the dawn meets the day

You tell me not to count the days,
And I don't, I'm down, im down to hours
No matter what you tell me, over the phone
I wanna see it in your eyes, (in your eyes)
Can't put my arms around a, photograph
Life from a distance don't last

Put your arms around me
Your the one and only
I'll be here if u let your heart show the way.
Come lay down be beside me
Put your arms around me.
I'll be here when the dawn meets the day

Only you can revive me
And save me from a broken heart.
I wanna have you beside me
Together make a brand new start

Put your arms around me

Put your arms around me
Your the one and only
I'll be here if u let your heart show the way.
Come lay down be beside me
Put your arms around me.
I'll be here when the dawn meets the day

Put your arms around me
Your the one and only
I'll be here if u let your heart show the way.
Come lay down be beside me
Put your arms around me.
I'll be here when the dawn meets the day
