

Rock The World With You

Natural

Were're gonna know we're on the run
Just grab your stuff and in a minute
we'll be gone
We're gonna go away like strangers
And soon the world will know
How far this kind of love will ever go
Remember what I say

Baby no matter what they do
I'm gonna rock the world with you
They're gonna see our love is true
I'm gonna rock the world with you
I'm gonna rock the world with you

I never doubt you would go
We're gonna do the things we've never
done before
We're gonna show the world we're
serious
Don't need no reason why
you gonna find that our love will
never die
Remember what I say

Baby no matter what they do
I'm gonna rock the world with you
They're gonna see our love is true
I'm gonna rock the world with you
I'm gonna rock the world with you

We're gonna rock the world
We're gonna rock the world
We're gonna go away like strangers
And soon the world will know
How far this love will ever go
Remember what I say

Baby no matter what they do
I'm gonna rock the world with you
They're gonna see our love is true
I'm gonna rock the world with you
I'm gonna rock the world with you

Baby no matter what they do
I'm gonna rock the world with you
They're gonna see our love is true
I'm gonna rock the world with you
I'm gonna rock the world with you
