

# Be the One

Ne-Yo

I'm not gonna start no trouble  
I'm not one to throw no salt  
But you're standing out here crying  
I watched as that dude drove off  
Assuming that that's your man  
Assuming that y'all just fought  
I don't know the whole story  
But assuming it wasn't your fault

Baby since he just won't do it right  
Let me be the one  
Let me show you what real love is like  
And do the things he should have done  
Baby since he just won't do it right  
Let me be the one  
Let me show you what real love is like  
And do the things he should have done  
Let me be the one

Now I know that you don't know me  
But hear what I'm talking about  
'Cause when I look at you what I see  
Is we're trying to work it out  
Now I don't know him so I can say that he's a bad dude  
But is he really trying I think not  
And all I'm saying is that if he won't make the effort  
Let me give in a shot

Baby since he just won't do it right  
Let me be the one  
Let me show you what real love is like  
And do the things he should have done  
Baby since he just won't do it right  
Let me be the one  
Let me show you what real love is like  
And do the things he should have done

Let me be what you want  
Let me be what he's not  
Let me show you real love  
'Cause real love is all I got  
Come on in out the rain  
Come let me do it right  
Come let me change your heart  
And change your life oh woo

Girl let me be the one, be the one (4x)

Oh la la la la la  
La la la la la  
Oh la la la la la

Baby since he just won't do it right  
Let me be the one  
Let me show you what real love is like  
And do the things he should have done  
Baby since he just won't do it right

Let me be the one  
Let me show you what real love is like  
And do the things he should have done
