

Asbestos

Necro

Nobody's getting rid of me. I'm staying! Staying until
you're all dead and buried! Until you rot in your
graves! You'll never get rid of me! Never!

Official on some Guy Fisher shit, pop you with the
biscuit
Cut you in the brisket, buck you, the misfit
Fuck you you're dead, I wished it
Like Kid Twist with the ice pick jiggling you, sticking
you sickly quickly bitch cause I ain't digging you
Slit your gutter roll like a butter roll, blood'll
flood a pool, fuck your slut, nut in her hole
Tortured on mortuary slabs, coronary stabs,
extraordinary the more the merrier, you're inferior,
bury you
Execute you bitch, shoot you in the tits, it's the
hoochie coochie man kicking brutal shit
Recruit the sick, got two pits playing ? with your
dick, volcanic like Fuji
Contusions on your skull, rep Brooklyn like a cool G
Shitbird get beheaded like Nick Berg deaded you herbs
Human flesh turd blood red on the curb
My Saturday night special splatter your brain
Send you to the church of the Latter Day Saints in a
box, scatter the remains

Cut open your grill, peel, slice
Motherfucker I'mma carve you up real nice
You get nothing but death, bucking at your chest
I'm Necro, you fuck with me you're fucking with the
best

Cut open your grill, peel, slice
Motherfucker I'mma carve you up real nice
You get nothing but death, bucking at your chest
I'm Necro, you fuck with me you're fucking with the
best

Body fluid ejaculation you crack basin, you know the
rep, think before you step
Start the back pacing, Fred, Mike, and Jason are bitch
Blast a clip in your face like Berkowitz did to Stacey
Moskowitz, scare you out your wits
Uncompletely rehabilitated, reinvigorated,
reassimilated and relocated site
Leave you discombobulated, bob and weave jab your
noggin
Fuck up your medulla oblongata, carving you like ?
Evil like Baba Yaga, I'm obligated to whip out my dick,
Lady Gaga ate it, she ovulated
I'm not about love so punk step to me drunk, disrespect
I'll take a chunk out of your neck, something I could
be proud of
A loaded sawed-off explode your orifice off, Chuck
Norris is soft
Kid I glorify gore like Boris Karloff, a metal splint
in your lung

Regurgitation inspiration like the Virgin Mary covered
in elephant dung

You're totalled, packed in a bag like a yodel, smash
you like Todo
Leave you immobile for acting like a fag Frodo
From the gallows to a shallow catacomb
Shoot Calicos at your dome, that's how it goes
Hit with the chrome back to your mouth foam, shatter
bones
Hear you moan I'm a known cat prone to flip, ask around
homes
With this twelve gauge shotty, break in your crib in
rage
Pull the trigger at your ribcage for a big wage
When the metal's pulled you're getting killed, it's
settled
Hit you with a cattle bell dead in the grill, you'd
better chill
Choke a slut, crack open your coconut
Leave it broken, I'm a local nut
Cut you back open and burn you with a smoke butt
Like Napoleon Bonaparte rip every bone apart
Blood on the linoleum, dead you like Joan of Ark
Dracula packing a revolver, involve you with an
unsolvable attack
Whack you like the Black Dahlia

[Chorus]
