

# Foul Body Autopsy

**Necrophagist**

Snorting - the vile stench of putrescence  
Coffin - lies exhumed in front of me  
Foul stiff - strewn with papillae and pores  
Formenting - stiff corpse putrefies

Slicing, bisecting, incising the stiff

Stomach wall is opening  
Primitive diagnosis  
Remove internal organs  
Primitive autopsy

Slicing, bisecting, incising the stiff

Sawing - the weak head of the corpse I saw  
Slicing - cerebral bisection  
Eviscerate - slushy bowels ripped out at once  
Perfecting - foul body autopsy

Slicing, bisecting, incising the stiff

Stomach wall is opening  
Primitive diagnosis  
Remove internal organs  
Primitive autopsy

Slicing, bisecting, incising the stiff
