

# Celebration Of The Goat

Necrophobic

See the silouhettes sharp over bloored skies  
Like serpents we shall interwine  
Lost in forever, forever as one  
Ecstatic on dionysus's wine

We perish together and float trougt the sphrees  
Defying the limits of times  
Our word is in downfall and cosmos collide  
Exploring the mystires 9

An unholy communion is sworn in the night  
Sexual rites for the one  
Set the churches on fire in twisted desire  
And the war towards Christ has begun  
Breeding the seeds of shadows to grow  
In times of the righteous and fire  
When missions complete my bride of the night  
You'll soar eternal with me

Goddess of lust and delight  
Fuck me like ever before  
Bonded by death and sinful desires  
Forever thou shalt be my whore  
Priestess of death and darklust  
Shadowborn mother of all  
Unspeakable acts of secretion and blood  
Celebration of the goat

Emotional outburst beyond human sense  
Electric we hold to unite  
The scent of your skin, the grace of your soul  
Together we trespass the light  
I'll walk you to death and death we become  
To keep all your purity free  
In the eyes of chaos I will end your life  
To soar eternal with me

Goddess of lust and delight  
Fuck me like ever before  
Bonded by death and sinful desires  
Forever thou shalt be my whore  
Priestess of death and darklust  
Shadowborn mother of all  
Unspeakable acts of secretion and blood
