

The Girl for Me

Neil Sedaka

The way you hold me tight
The way you kiss goodnight
And every time we dance
My heart goes in a trance
You're (special) something special (special)
Oh, so special
You're the girl for me

The way you fix your hair
The way you choose your clothes
And every time you smile
Your lovely dimple shows
You're (special) something special (special)
Oh, so special
You're the girl for me

Anything you ask me
I, I will do
Anything at all I'll do for you

The way you like to laugh
At things we used to do
And even when I'm sad
You make me happy, too
You're (special) something special (special)
Oh, so special
You're the girl for me

You're (special) something special (special)
Oh, so special
You're the girl for me (the girl for me)
