

# A New Day for Love

Neil Young

It's a new day for the planet  
It's a new day for the sun  
To shine down on what we're doin'  
It's a new day for love

It's a bad day to do nothin'  
With so many people needin' our help  
To keep their lands away from the greedy  
Who only plunder for themselves

All the people in the whole wide world  
Nobody matters but you and me  
When it comes to protecting our precious gift

(It's a new day) It's the big scene from the movies  
(It's a big scene) Where the gunslinger rides away  
(It's a big scene) Outside a town past the needy  
(It's a big scene) And the rows of soldiers' graves  
(It's a new day) They fought the wars we thought we needed  
(It's a new day) They never asked us for a thing  
(It's a new day) And we believed in what we were doin'  
(It's a new day) While the earth is givin' way

Of all the feelings in the whole wide world  
I can't begin to do or say  
Anything but protect our precious gift

It's a new day for the planet  
It's a new day for the sun  
To shine down on what we're doin'  
It's a new day for love
