

# I'm Glad I Found You

Neil Young

So many people don't understand  
What it's like to be like me  
But I'm not different from anyone else  
I'm glad I found you

It's not that we got anything new  
It's not that it's any better or worse  
The way life treats us is a blessing and a curse  
I'm glad I found you

When you're walking in a crowded place  
I'll try to hide you and give you space  
And I'll protect you from the things that come  
I'm glad I found you

The other day when you took my hand  
We walked away to the promised land  
When I feel your soul in mine  
I'm glad I found you

Glad I found you in this sad world  
Where so many things have gone wrong  
It took me so long just to find you  
Right where we belong

I'm glad I found you in this mad world  
You're a lifeline to me  
And when I hold you I will shield you  
From the things that we both see

So many people don't understand  
What it's like to be like me  
But I'm not different from anyone else  
I'm glad I found you  
I'm glad I found you  
I'm glad I found you
