When we go for a little walk, Out on the land, When we're just walkin' and holdin' hands,

You can take it as a sign of love, When the winds of fate, Keep blowin' and we both understand,

Sign of love
It's a sign of love

When we both have silver hair, And a little less time, But there still are roses on the vine,

You can take it as a sign of love, When I look at you, When I'm lookin' at you for a long, long time

It's a sign of love A sign of love Sign of love Sign of love

When I first saw you, You were just a girl, And I was a man, While the music played, I watched you dance,

Sign of love
It was a sign of love
