

"You're ridin' on a sinking ship
it's ahead of its time
It cannot be
It won't be allowed"

You may be right
But we're too proud
To back down
We'd rather drown
We'd rather die
Than be alive
And throw it all away
Because someone else said
It shouldn't be this way
We will not throw it away
Because someone else said
It shouldn't be this way

Drink the standing water
You deserve what you believe
So go ahead and taste the fetid water
But me? I'll drink from the stream

Drink the standing water
You deserve what you believe
So fucking drown in the fetid water
But me? I'll drink from the stream
