

## Bring Us More

Nekrogoblikon

yow!  
come on, come on  
alright, alright now...  
it's time to get fucked up  
they tried living in peace, it didn't go so well  
they tried being at ease, but it was boring as hell  
so now it's time to turn around and try the opposite approach...  
heavy drinking sex and drugs and gambling and violence!

bring it to me  
it's time I had it all  
moderation is a fallacy  
we're not waiting for the fall (or are we waiting on the fall?)  
sinking deeper in  
I'm rising higher than I've  
ever been before  
so kill this conscience-clad delirium  
and bring us more

now they've got some more (more)  
and they all rejoice (more)  
they just want some more (more)  
this is purely by choice  
whatever it is,  
they want more than one  
because life is dull  
when you don't have fun  
so they bide their time,  
because they're never gonna die  
might as well take an eon  
and just get high  
bring it to me  
it's time (I had it all)  
moderation is a fallacy  
we're not waiting for the fall (or are we waiting on the fall?)  
sinking deeper in  
I'm rising higher than I've ever been before  
so kill this conscience-clad delirium  
and bring us more

why?!  
it's wearing off  
our problems were supposed to be solved  
but they're not, we're still alive  
so let's do some more  
hurry up and bring it here  
there's no time to waste  
we're getting angry  
getting conscious & getting bored  
wait, I think it's working

yow  
that was a good call  
now we're definitely gonna be happy... forever  
now the gutter's overflown  
and the streets are flooded  
with the bile of the drunk

and the blood of the gutted  
what in god's name is this shit?  
and what have we been thinking?  
who gives?!  
let's just take another hit  
and keep on drinking  
bring it to me  
it's time (I had it all)  
moderation is a fallacy  
we're not waiting for the fall (or are we waiting on the fall?)  
sinking deeper in  
I'm rising higher than I've  
ever been before  
kill this conscience-clad delirium
