

Put on your best clothes
We've been waiting too long for this moment
I'll put on my best smile
I'm shining inside, and I'm proud of our love, but
Every time I turn around
You say that you're not checking for love in that way
But every time I come around you seem
So ready for this

Show time, our love's coming out
Lights, camera, action; show what we're about 'cause it's
Show time; our love's breaking out
Let's show the world you're my boy
I'm your girl 'cause it's
Show time; our love's coming out
Lights, camera, action; let it all hang out
'Cause it's show time
Yeah, our time is now
Let's show the world you're my boy
I'm your girl

Let's break a leg out there
This could be the start of the rest of our lives
I've got so much to share
And I'm ready to put it all out there for you
But every time I turn around you seem
So afraid of what people might say
But can't you see it's a game they play
Trying to cast a shadow on our love

I wanna love you when I want
Want to love you where I want to
Wanna touch you when I wanna
Wanna kiss you when I wanna, baby

Because it's not fair to love you in chains
It's not fair to love you in chains
