

Do You Believe in Religion?

Nelson

Desert messiah ain't nothing new, we all know his kind
Another self-appointed prophet with world domination
On his puny mind

Whispered scenes behind closed doors
How does one make the people think
His greed's worth dying for?
Hey, let's start a holy war!

Do you believe in religion?
I believe it's your decision
Do you think it makes a difference?
Is it just some man-made vision?
Do you believe in religion?
I believe it's your decision
Do you think it makes a difference?
Do you really care anyway?

Midnight preacher calls me a sinner
And maybe he's right
He said he's just used the hot line
And God's got a message for me
He says
He condemns my situation, if I want to find salvation
It's time to phone in my donation as a vow of faith
He tells me that the church has got an image to protect
And God wants me to give, give 'til it hurts

Stayed me hand, it's just as well
They caught him using God's tax-free cash
To feed the kitty in some cheap motel
And now he's going to Hell

Do you believe in religion?
I believe it's your decision
Do you think it makes a difference?
Is it just some man-made vision?
Do you believe in religion?
I believe it's your decision
Do you think it makes a difference?
Do you really care anyway?

Do you believe in religion?
I believe it's your decision
Do you think it makes a difference?
Is it just some man-made vision?
Do you believe in religion?
I believe it's your decision
Do you think it makes a difference?
Do you really care anyway?
