

She Loves Me

Nelson

I can't remember when I felt this good
I'm crossin' my fingers
I'm knockin' on wood
Feeling richer than a poor boy should
It's more than I deserve, and all because of her

She loves me more than words can say
And it just gets better every day
I thank the good Lord every night
I guess I finally got it right
She loves me

Feel like a rookie in a hometown game
Who made the winning catch
And saved the day
Lately everything's been going my way
I want everyone to know I'm really on a roll

She loves me more than words can say
And it just gets better every day
I thank the good Lord every night
I guess I finally got it right
She loves me

She's an extraordinary girl
(Tell us about it-tell us all about it!)
And I just want to tell the world
(Tell us about it-scream and shout it!)

She loves me more than words can say
And it just gets better every day
I thank the good Lord every night
I guess I finally got it right
She loves me

Oh-she loves me
Ooh Hoo Hoo
Oh-she loves me
She loves me more than words can say
