A place like this, a girl like you Is all I need to get me through I'm hypnotized when you take the stage Table dance my blues away

From Officer Easy to Little Bo Peep She's a master of disguise She's sugar and spice, she's naughty and nice And she can read my dirty mind

C'mon, little honey, walk this way
Strut your stuff in that lingerie
That's right, pretty mama
Give me your sunset strip
Tease me, please me, help me unwind
And I'll feed your pretty kitty one buck at a time

Bump it, grind it, blow me a kiss
I'm at your mercy when you do that sunset strip

You're a feast for hungry eyes You could make a grown man cry You're in control of every man Your every wish is my command

If Calamity Jane doesn't drive me insane Nurse Nympho is sure to please Then Little Annie Fannie's gonna rock me to my knees

C'mon, little honey, walk this way
Strut your stuff in that lingerie
That's right, pretty mama
Give me your sunset strip
Tease me, please me, help me unwind
And I'll feed your pretty kitty one buck at a time

Keep this up and I'll blow my lid You make me explode when you do that sunset strip Your sunset strip has got me goin' crazy (Take it off!)

Oh yeah, it's just another night out with the boys Oh baby, bring on those dancing girls Yeah, we're all gonna leave here broke, drunk, and horny Oh, I love you, I love you!

C'mon, little honey, walk this way
Strut your stuff in that lingerie
That's right, pretty mama
Give me your sunset strip
Tease me, please me, help me unwind
And I'll feed your pretty kitty one buck at a time

I've been around the world and you're the best there is You make me feel like a king When you're queen of the sunset strip (Take it off!) The sunset strip has got me goin' crazy! (Take it off!)
