

Don't Tell Me Your Name

Nemesea

Velvet sheets, kissing naked skin
Lights fade away
Sounds mute, we're forever young
I believe in come what may
Left my sneaker on the stairs tonight
So I won't sleep alone
I fly free, you're all colorblind
I'm a chameleon

Don't
Don't tell me your name
Let's play pretend
We are safe
Don't
Don't tell me your name
'Cause we are all kings
Love washed away

Walk along, trust in where we go
Red locks guide your way
I glued rose-colored glasses on
Dance bitterness away
I make love to my fantasy
And fuck reality
So fuck off, I am in the zone
Like I am high on E
Flying free, follow me

But don't
Don't tell me your name
Let's play pretend
We are safe
So don't
Don't tell me your name
'Cause we are all kings
Love washed away

Velvet sheets, kissing naked skin
Lights fade away
Sounds mute, we're forever young
Be still, come what may

Don't let me wash away
So don't
Don't tell me your name
'Cause we are all kings
Love washed away
