

Ratata

Nemesea

I'm sorry, just help me
Good your name's on the marquee
Come on, click your heels
I know that you can, honey
(Ayy, ayy
Ayy, ayy)
I'll say it's just a phase
My sugarcoat will erase
You should be free
Show me what you are made of

Rata tata
Rata tata

Don't let it all burn down
I know you want it
Don't let it all burn down

(Ayy, ayy)
Ratata ratata
(Ayy, ayy)
Ratata ratata

Don't resist your craving
Don't dare to keep me waiting
I know those eyes
You know where to find me, honey
Dazzle me, just blind me
Rub it till it is shiny
Don't be afraid
Our lips will be sealed forever

Rata tata
Rata tata
Rata tata
Rata tata

Don't let it all burn down
I know you want it
Don't let it all burn down
I know you want it
Don't let it all burn

The forest turns quiet
When they are shouting my name
They're hiding my silence
As I drift away
Heard nothing, saw nothing
They just looked away

Rata tata
Rata tata
Rata tata

I know you want it, hey
I know you want it, hey
Just be a good boy now
