

Conversation

Nena

Different people in a different world
Take your time before you talk to me
Because we're different people
In a different world
Where is the conversation

Different people in a different world
Come on give a little love to me
Because we're different people
In a different world
We need the conversation

Same food
Same age
Same food
One day we'll meet us on the same stage

You've got you
I've got me
Loneliness is a such a drag oh oh oh oh
All you do
I look at you and there is the conversation
