

# Better

Nerina Pallot

I can make it better  
If you were my man  
I can make it better  
Do you understand?  
I can make it better, better, better  
You know I can  
You know I can

It's OK to be sad  
To want things, you can't have  
That's the human condition  
Fill my glass  
Drink it up  
Hope and pray, it's enough  
There's always something missing

Driving into town  
Oh god I feel hopeless  
Wind the window down  
I'm flat, I'm joyless  
Thinking about you  
I'm thinking of you  
How you're getting on  
And what you've been doing?  
Did you take your kid to park?  
You know, that's you've ruined my mind  
You've ruined my mind

I can make it better  
If you were my man  
I can make it better  
Do you understand?  
I can make it better, better, better  
You know I can  
You know I can

If you feel so inclined  
You can rest your head on mine  
You don't need my permission  
I get sick  
I get tired  
I get bored sometimes  
It's the human condition

Driving into town  
Fuck I feel hopeless  
Wind the window down  
I'm flat, I'm joyless  
It's not okay  
It's not okay

I can make it better  
If you were my man  
I can make it better  
Do you understand?  
I can make it better, better, better  
You know I can

You know I can

Driving into town  
My god I feel hopeless  
I wind the window down  
It's a joke  
It's not okay  
It's not okay, but

I can make it better  
If you were my man  
You were my man  
I'd make it better  
Do you understand?  
I can make it better, better, better  
You know I can  
You know I can  
You know I can  
You know I can

I can make it better  
I'm gonna make it better  
I can make it better  
I can make it better

I'll make it better  
I'll make it better  
Just for you  
I'll make it better  
I'll make it better  
I'll make it better  
I'll make it better
