

## Come Back to Bed

Nerina Pallot

Come back to bed, turn off the light, love  
It's been a long day, don't leave it this way  
Not this way  
Don't say a word, just show me you want me  
Like I want you, oh, honey I do  
You know I do, woo

Come back to bed  
Come back to bed  
Come back to bed  
And love me instead

Take off the day and put on the night, love  
Here in the dark there's nothing to hide  
Nothing with yourself

Come back to bed  
Come back to bed  
Come back to bed  
And love me instead

Oh you know I'm stubborn, that's why you want me  
What would do without chemistry  
If you're sorry for what you said then, honey

Come back to bed  
Come back to bed  
Come back to bed  
And love me instead

You should love me instead, whoa  
We shouldn't fight, no  
We shouldn't fight, no, we shouldn't  
Come back to bed, honey  
Love me, love me, yeah, love me, ooh  
You should come back to bed  
Woo, come back to bed
