

Everything's Illuminated!

Nerina Pallot

See? It can't be seen
It's a dreamless dream that comes alive
when no one's watching.
Books and words can't write of a great divine
That comes alive when no one's watching
The great things that you do
are so meanignless to you...

Insane! Give me myself again
Make me a hurricane
And I will dissappear
In the light of day, give me mine back again
Make me a hurricane
Coz everything's illuminated!

1 2 3 4 5 they've got love and knives
And they are sharp - sharper and sharper
To bring what is not come, do what is not done
Well that is hard, and it gets harder and harder.
Oh like a whore unpack my heart
for the dogs to tear apart

Insane! Give me myself again
Make me a hurricane
And I will dissappear
In the light of day, give me mine back again
Make me a hurricane
Coz everything's illuminated!

Uh oh oh illuminated
Uh oh oh illuminated...

Insane! Give me myself again
Make me a hurricane
And I will dissappear
In the light of day, give me mine back again
Make me a hurricane
Coz everything's illuminated!
My faults, the things you've always hated
But my love of life is never sated
Oh everything's illuminated!
