

# Men Are Not from Mars

Nerina Pallot

Men are not from Mars, that being said  
She's always trying to figure out what's in your head  
Even when it's nothing, she's sure it isn't nothing  
You'll not persuade her

In your defense, she's always prone to tears  
For no apparent reason, she's sincere  
And when she says she wants to talk, she just means she wants to talk  
So let her

Sometimes  
The girl is fronting  
So scared to wear her heart on her sleeve  
In case it comes to nothing

So this is not that kind of song  
That says true love won't ever go wrong  
I know it's hard, I know you're stuck, but  
Don't give up

When you always feel like you've said something wrong  
You've blown your chance to get along  
I know it's hard, and you're out of luck, but  
Don't give up

And if she says she wants the lights down low  
It's only cause she's shy, so let her know  
That you think she's beautiful  
Beautiful, make your heart hurt

Assure her you can keep your word  
And she can trust everything she's heard  
What you give, you get back a thousand in return, oh  
You know you can depend on her

But sometimes  
The girl is fronting  
So scared to wear her heart on her sleeve  
In case it comes to nothing

So this is not that kind of song  
That says true love won't ever go wrong  
I know it's hard, I know you're stuck, but  
Don't give up

When you always feel like you've said something wrong  
You've blown your chance to get along  
I know it's hard, you're out of luck, but  
Don't give up

She'll come around  
Just give it time  
She'll come around  
Yeah, take it from somebody who knows

So this is not that kind of song  
That says true love won't ever go wrong

I know it's hard, I know you're stuck, but  
Don't give up

When you always feel like you've said something wrong  
And you've blown your chance to get along  
I know it's hard, you're out of luck, but  
Don't give up

Hey,  
Don't give up  
I know it's hard, you're out of luck, but  
Don't give up

Men are not from Mars, that being said  
You ain't ever gonna figure out what's in her head  
You ain't ever gonna do it soon  
Best sleep on it
