

## Stay Lucky

Nerina Pallot

Do you feel better now?  
Balloons and a hospital gown  
You had me worried there  
So worried there  
I thought you were letting go

Drift on an endless sea  
Everything's so pristine  
Wires to make you breathe  
So you just breathe  
Don't you dare let go

I hope you stay lucky  
Whatever you do  
I hope you stay lucky  
Many more like you  
I hope you stay lucky  
Your whole life through  
Your whole life through

And the greatest trick of life  
Is thinking that we'll never die  
Darling, don't ask me why  
It only makes you cry  
It only makes you cry

And I hope you stay lucky  
Whatever you do

I hope you stay lucky  
Many more like you  
I hope you stay lucky  
Your whole life through  
Your whole life through

I hope you stay lucky  
Whatever you do  
I hope you stay lucky  
Many more like you  
I hope you stay lucky  
Your whole life through  
Your whole life through

I hope you stay lucky  
Whatever you do  
I hope you stay lucky  
Many more like you  
I hope you stay lucky  
Your whole life through  
Your whole life through

I hope you stay lucky  
Whatever you do  
I hope you stay lucky  
Many more like you  
I hope you stay lucky  
Your whole life through

Your whole life through
