

The Right Side

Nerina Pallot

Oh, I'm a loaded gun
You flip my switch
You watch me run
'Cause I get so excited
I feel it coming on

I got a heartbeat in my brain
I can't keep still
You keep me entertained
I get no satisfaction
Until the game is won

I get a little high
You can't stop me

Watch out here we go
Here we go
You come along for the ride
My black heart Romeo
A real hero.
How can we lose when we're on the right side?

Oh, it's been so long since it felt so good
Your electricity is a curious notion.
It's so good to be alive
When you bring it closer now
Closer still
We're just a breath away from victory, baby
Such sweetness, drunk and dry

We get a little high
You can't stop us

Watch out here we go
Here we go
You come along for the ride
My black heart Romeo
A real hero
How can we lose when we're on the right side of it now?
Where are they now?
Their doom and gloom consumed them in the end

You've gotta leave it behind
Leave it behind.
Have a little faith
Play a little music
Put in it your heart
Baby we can use it
Get a little high
They can't stop us

Watch out here we go
Here we go
You come along for the ride
My black heart Romeo
A real hero
How can we lose when we're on the right side?

How can we lose when we're on the right side?
How can we lose when we're on the right side?

We're on the right side
We're on the right side
