

# This Will Be Our Year

Nerina Pallot

I can live with my old friend disappointment  
I can live with things not as they ought to be  
I can snatch a sorry crumb of comfort  
From the jaws of what might have been victory

I'll make do, like everyone  
I put my head upon the pillow when the day is done  
I make do, don't we all?  
I hope we're headed for a future and not headed for a fall

I don't know what this world's about  
But this will be our year  
I don't know why I'm singing out  
But this will be our year

Day by day, brick by brick we'll build it  
Make a life, make something to call our own  
Just enough to keep the wolf at bay  
Just enough so we don't feel so alone

I'll make do, like everyone  
What the point regretting all the things you've done?  
We make do, that's what it takes  
You keep on keeping on and you learn from your mistakes

I don't know what this world's about  
But this will be our year  
I don't know why I'm singing out  
But this will be our year  
Hold on now, this will be our year  
This will be our year  
Come on now, this will be our year

I make do, like everyone  
I put my head down on the pillow when the day is done  
We make do, that's what it takes  
You keep on keeping on and you learn from your mistakes

I don't know what this world's about  
But this will be our year  
I don't know why I'm singing out  
But this will be our year

I don't know what this world's about  
But this will be our year  
I don't know why I'm singing out  
But this will be our year  
Come on now, this will be our year  
Hold on now, this will be our year
