

Venomous

Nervosa

You've been dragging yourself
Following doom
The sarcastic smile
On your face is evident
Satisfaction and relief
From defeat

Venomous envy
Venomous greed
Venomous hatred
Venomous envy
Venomous greed
Venomous hatred

Disparageous
Denigrator
Crawling creature
Scorn infector
You foul betrayer
I just say
Get out of my way

Frustration is bigger
Than your desire
Inside of you
Everything is dire
Venomous envy
Venomous greed
Venomous hatred
Venomous envy
Venomous greed
Venomous hatred

Venomous
Venomous, venomous!

Venomous
Venomous, venomous!

Your spirit is black as obsidian
Your heart is cold as a stone
You came straight from the shadows
Go back to where you belong

Venomous envy
Venomous greed
Venomous hatred
Venomous envy
Venomous greed
Venomous hatred

Disparageous
Denigrator
Crawling creature
Scorn infector
You foul betrayer
I just say

Get out of my way
Venomous
