

Wrong Side Of Town

Never Shout Never

The wrong side of town

You're telling me you're just a small town girl
sweet shut down 44 by 3 hours what's the fear
you're here for the night and you're feeling alright
but you seem like the type to me when you're falling in love

Spend the night with me, I'll take you away from unnecessary pain
you face every day from the modern pushing pore
it tugs you around so please spend the night with me
I'll show you around the wrong side of town.

You're telling me you are a good girl
I really ain't want to judge
but you seem like the type to love her..for dust
you're telling me you are an actress
honey you ain't fooling me, you're talking big talks
then we dad in the eye as your life through your teeth

Spend the night with me, I'll take you away from unnecessary pain
you face every day from the modern pushing pore
it tugs you around so please spend the night with me
I'll show you around the wrong side of town.

La la la la la la

Spend the night with me, I'll take you away from unnecessary pain
you face every day from the modern pushing pore
it tugs you around so please spend the night with me
I'll show you around the wrong side of town.

Spend the night with me,
I'll show you around the wrong side of town,
Will keep you hide on the wrong side of town
you won't say goodbye on the wrong side of town
will keep you hide on the wrong side of town
you won't say goodbye on the wrong side of town
will keep you hide on the wrong side of town
you won't say goodbye on the wrong side of town
will keep you hide on the wrong side of town
You won't say goodbye.
