

## Last Of The Great Lovers

### Neverending White Lights

Here, now  
In your face I've found  
The strength to call  
Your heart out

If you could agree, if you could agree  
Everything's over for us now  
What I couldn't take, what I couldn't take  
When everything's over for us now

You look at me, would you look at me  
There are no arms to hold you now  
If we could agree, if we could agree  
Everything's over for us now

You'll never know your place now

You said your all that's left  
But I held your hands now that you've  
Set your heat against us

If you could agree, if you could agree  
Everything's over for us now

If you could agree

And you believed in life  
But you found me dead
