

Warding Off The Spirits

Neverending White Lights

Wake my body up
Wondering what is mine
Summer once again
But winter always wins

And now you find that you're losing your place
And so you give in and give up

So I tell myself
I only wished us well
Life is all we know
But somehow not for sure

And all of the days we spend awake outside the grave
And here in the night I know this life will not end

Spirits fly
Bodies lie
Don't you fear
Don't you fear
[x2]

Spirits fly (spirits fly)
Bodies lie (bodies lie)
(Don't chase me)
Don't you fear
Don't you fear
[x3]
