

Cries From The City

Nevertheless

She's eating this disorder
Starving herself
'Cause she's starving for attention
Like it's vital to her health
And she cries
Out her eyes

If anyone could see me
Could you give me what I need?
She takes her pills
And it keeps her alive
She takes her pills
To fill her up inside

He's standing on the corner
Holding out his hand
And he's begging for someone
Anyone, to understand
And he cries
Out in lights

If anyone can see me
Could you give me what I need?
If anyone can see me
Could you make my heart not bleed?

If anyone can see me
Could you give me what I need?
If anyone can see me
Could you make my heart not bleed?

You take your pills to fill you up inside
