Atmosphere

Walk in silence Don't walk away, in silence See the danger Always danger

Endless talking Life rebuilding Don't walk away

Walk in silence Don't turn away in silence Your confusion My illusion

Worn like a mask of self-hate Confronts and then dies Don't walk away

People like you find it easy Naked to see, walking on air Hunting by the rivers Through the streets

Every corner abandoned too soon Set down with due care Don't walk away in silence Don't walk away
