

Sometimes I feel that you're a part of me  
Although it don't seem real, it's how I want it to be  
But if you can't stay then I'll understand  
You're just sawdust in my empty hand

If you can't decide, I'll still be true  
Just open wide, I'm here for you

And if you think that you've found  
A gentle sound, where love breaks down  
It's alright and if you can't overcome  
What gets you down don't get uptight, it's alright

I'm a shallow man in an hollow land  
On a beaten track under your command  
And the sound in my head goes round and round  
Like a drunk on the stairs who just fell down

But now it seems like a distant dream  
When it all lived wrong with our love supreme  
And the sound in my head goes round and round  
Like a drunk on the stairs who just fell down

And if you think that you've found  
A gentle sound where love breaks down  
It's alright and if you can't overcome  
What gets you down, don't get uptight, it's alright
