

## The Perfect Kiss

New Order

I stood there beside myself  
Thinking hard about the weather  
Then came by a friend of mine  
Suggested we go out together  
Then I knew it from the start  
This friend of mine would fall apart  
Pretending not to see his gun  
I said let's go out and have some fun

I know you know  
We believe in a land of love  
I know you know  
We believe in a land of love

I have always thought about  
Staying here and going out  
Tonight I should have stayed at home  
Playing with my pleasure zone  
He has always been so strange  
I'd often thought he was deranged  
Pretending not to see his gun  
I said let's go out and have some fun

I know you know  
We believe in a land of love  
I know you know  
We believe in a land of love
