

# Working Overtime

New Order

Who's that over there  
Looks like he dont care  
Almost lost his time  
Too much working overtime

Gotta get up every night  
Sit against an open wide  
Gonna get away from here  
Take that car and push that gear

You turn me in no one  
He's the rising sun  
He wont share no tears  
Got no time to break down here, Hey!

He's going nowhere fast  
Just a piece of dirty trash  
All alone by himself  
He dont need nobody else

Walking down the street  
So much going on  
People everywhere  
Look at him but they dont care

See that world out there  
Make it go away  
You can change his mind  
Too much working overtime  
Hey! overtime (5x)  
Overtime (4x)

He crossed that wicked line  
In trouble all the time  
Where did it all go wrong  
Hands easy all night long

All those girls out there  
Looking for the one  
Do they really care  
Could they just be having fun

He did all he could  
Try to get it right  
Somewhere he went wrong  
Too much working overtime  
Hey! overtime (5x)  
Overtime (4x)
