

## Beauty of Our God

NewSong

See the colors of the rainbow  
He painted them by hand  
His eye is on the sparrow  
And every hair that's on your head

And did you ever think that nothing has ever slipped His mind  
And though He's got the whole world in His hand  
If you call Him He's got time

He's the light in the dark place  
He's the smile on a child's face

Hey you, don't you know  
Good days come and good days go  
But He loves you  
That's the beauty of our God  
It's all right, it's okay  
Tomorrow is another day  
And He's been there  
That's the beauty of our God  
That's the beauty of our God

Listen close you'll hear Him whisper  
Surprising you with joy  
You can dream about the future  
But His plans are so much more

He's the God of every wonder  
Still He knows you by your name  
Though He knows sometimes we stumble  
He loves us just the same

He's the light in a dark place  
He's the smile on a child's face

Hey you, don't you know?  
Good days come and good days go  
But He loves you  
That's the beauty of our God  
It's all right, it's okay  
Tomorrow is another day  
And He's been there  
That's the beauty of our God  
That's the beauty of our God
