

# When I'm With You

NewSong

It's a brand new day  
And already this world is closing in  
The telephone rings  
And here I go again

Lord, I need You here to bring  
Some rest to my heart  
I whisper Your name  
and Lord right there You are

When I'm with You  
This world stops turnin'  
One look in Your eyes  
And my heart stops hurting  
I love the way that You know  
Just what to do  
With me  
When I'm with You

We've all had those days  
When nothing would work out right  
Those up and down days  
They turn into sleepless nights

When we need You here  
To bring some rest to our hearts  
We whisper Your name and Lord  
Right here You are

One day the sun and the moon will stop shining  
Every star is going to fall from Heaven  
But on that day I won't be afraid  
I know You'll be there beside me
