

# Far to Fall

Newton Faulkner

From the moment we rise, we hide, and bathe in the glow.  
Occupying your mind with all they want you to know

We got to get on our way now,  
We got to get on our way.  
Time is ticking, tick ticking away.  
We got to get on our way now,  
We got to get on our way.  
Time is ticking, tick ticking away.

We don't have far to fall,  
Got to work it out.  
On our way down.  
We don't have far to fall,  
Got to work it out.  
On our way down.

On our way down.

I'm just trying to find my way back home,  
To where we belong free from their control

We got to get on our way now,  
We got to get on our way.  
Time is ticking, tick ticking away.  
We got to get on our way now,  
We got to get on our way.  
Time is ticking, tick ticking away.

We don't have far to fall,  
Got to work it out.  
On our way down.  
We don't have far to fall,  
Got to work it out.  
On our way down.

On our way down.

Cool miss on the work can be so cruel  
You got to hope that you can do,  
Sometimes to win you have to lose.  
After destruction came the light, came the light.  
After destruction came the light, came the light.

We don't have far to fall,  
Got to work it out.  
On our way down.  
We don't have far to fall,  
Got to work it out.  
On our way down.

On our way down.

From the moment we rise, we hide, and bathe in the glow.  
Occupying the mind with all they want...
