

# Borderline

newworldson

Keep your soul in mind when you reach that borderline  
There's a crossing that divides right from wrong  
There's a line in the sand  
Have you chosen where you stand?  
You can linger but you can't linger long

When you're standin' at the borderline  
When you're standin' at the borderline  
Standin' at the borderline, borderline  
Standin' at the borderline, borderline

Said, keep your soul in mind when you reach that borderline  
There's a crossing that divides right from wrong  
There's a line in the sand  
Have you chosen where you stand?  
You can linger but you can't linger long

When you're standin' at the borderline, borderline  
When you're standin' at the borderline, borderline  
Standin' at the borderline, borderline  
Standin' at the borderline, borderline, listen

Better believe that there'll be snares  
Better believe you'll see your share  
Better believe temptation's gonna come around  
You gonna stumble here and there  
You gonna think that life's not fair  
You gonna feel just like the world is tryin' to bring you down  
Bring you down

Help me out now, what I, what I  
What I gotta say they're serious now, listen  
See, there's a fork in the road  
Do you know which way to go?  
You can't always see what's comin' round the bend  
You better watch for the signs if you're gonna walk that line  
Or you just might have to turn around again

Said turn around, turn around, turn around, around again  
Turn around, turn around, turn around, around again  
Turn around, turn around, said turn around, around again  
Turn around, turn around, turn around, round

Standin' at the borderline, borderline  
When you're standin' at the borderline, borderline  
Standin' at the borderline, borderline  
You're standin' at the borderline, borderline  
You're standin' at the borderline, borderline

Standin' at the borderline, borderline  
Standin' at the borderline, borderline  
Standin' at the borderline, borderline
