

Sweet Soul Music

newworldson

I like sweet soul music in the afternoon when it's sunny out in
June
Long tall Sally's gettin' down with us
Everybody clear some room
I like sweet soul music in the evening time
Is everyone feeling fine?
Can we give you something for your body and your mind?

Sweet soul music
Straight from the soul

I like sweet soul music 'cause it feels so good and that's just
how it should
I like swingin' rhythm and the big bass drum
Everybody stomp the wood
I like sweet soul music 'cause it's all I've got and I don't ha
ve a dime
We can give you something for your body and your mind

Sweet soul music
Straight from the soul
