

Total Eclipse

newworldson

Fallen angel eclipsed the son
Crucified the chosen one
Dragged your name through the mud
Made the nations forget the blood

Devil's got a spell on the world today- oh yes he does
But don't nobody tell me - that's just the way it is
'Cause I don't believe in this total eclipse of the son
I don't receive this total eclipse of the son

Fallen angel eclipsed the light
On his way down from heaven's heights
He built a kingdom of steel and gold
Of television and stolen souls
