Oh uh, How ya doin'

Ya name?

oh, I'm R.L.

You have to excuse me, I'm a little nervous

What makes you think you deserve a woman like me?

I mean I work hard and I..

No, what really makes you think you deserve a woman like me?

I gotta be real witchu, baby

I'll do whatever it takes to please you

Oh...Tell me more

Whatever you want, it's yours

And if I ain't got it, I'll get more

Whether inside or in stores

I wanna be what you're looking for

Whatever you want it's yours

And if I ain't got it, I'll get more

Whether inside or in stores

I wanna be what you're looking for

So you say you want a resume, references

Contacts on relationships

How many kids is it

Where do I work, what do I do

What makes me deserve a woman like you

I work hard, play hard

Lace soft but stay hard

I'll sacrifice to please you

Mami, I'm tryin' to see you

Now, I'm a damn good man with some damn good love

Trying to find someone to give it to, yeah

(Oh yeah?)

And I'm down to lace it on you

Give me the time and the place

Just show you face

Show me the line in the race

I'll be your ace

I just wanna love you

Give me the chance to show you, I want you

So listen here love, you get what you ask for

Material things are smaller'n me cuz I offer more

And won't y'all fool the teacher when I say this

Willing to do what it takes honey

Just to get in the mix with you

So listen, boo, picture me and you

Candlelight dinner for two, romantic rendezvous

You only live once, don't miss a chance of a lifetime

You want the world and I'll give it

Because it's all mine

[Repeat 1 until fade]
