

I wish I was so real I wouldn't have to lie
I wish I was so real I wouldn't have to lie

So I asked: "Are you still here?"
Although I know you always will
So I asked:
"Is that your hand that constricts me so tightly?"

If I burn in a hell, I'll make you more than bad
If I stay the same, you'll feel my pain

I've never wanted to be alone
Livin' alone in my world
I've never wanted to let your hand bad
constricts me so tightly

So I asked: "Are you still here?"
Although I know you always will
So I asked:
"Is that your hand that constricts me so...." ...so what?...

So I asked: "Are you still here?"
Although I know you always will
So I asked:
"Is that your hand that constricts me so tightly?"
