

She's Got Soul

Nick Lowe

I've just met what could be
The making of me
She's got soul
She's got soul
Out of the blue, into my world
I've found a pearl
She's got soul
She's got soul

I've been lonely so long
I stopped hoping I'd ever find someone
So it just goes to show how wrong you can be

Did you hear what I said?
She's got soul
I've just found a pearl
She's got soul
She's got soul

I've been lonely so long
I even stopped hoping I'd ever find someone
Did you hear what I said?
She's got soul
I've just found a pearl
She's got soul
She's got soul

She's got soul
I mean she's really really got it going on
She's got soul
