**nickasaur!**

I'll put a message in a bottle and I'll throw it across the sea  
Your the lock and included is the key  
Along with a dozen x's and o's  
Lord knows that you can't get enough of those  
You're supercalifragilisticexpialidociously cute  
Sweeter than a 12 pack of juicy fruit  
Surreal, but I know this isn't a dream  
We go good together just like coffee and cream

Great googali-moogali  
Is she a movie star?  
And is your dad a robber?  
I saw him go  
Way up high  
Past the sky  
He grabbed the stars and put their twinkle  
In your eyes

I'll put a message in a bottle and I'll throw it across the sea

Hold up wait a minute  
Hold up wait a minute  
Hold up wait a minute  
Hold up wait a minute

Hold up wait a minute  
Sprinkle some love in it  
Seal it with a kiss and a tiny bit of  
Xoxo  
Forever to grow  
Make it last forever cause we'll take it slow  
I hope that you get it  
I pray that you get it  
I wish that you wont stop to don't stop, get it get it

Don't stop, get it get it  
Don't stop, get it get it  
Don't stop, get it get it  
Don't stop, get it get it
