

Distance

Nicky Romero

Too far gone, too far gone

When we were apart
All I'd ever do is think about you
Syncopated hearts
Light years away but I still feel your every move
Like you're in my arms, so when you're not
And now that you are, it's like you're not

Oh, I've been holding on too long
Too far gone, too hard to reach us
Turning right, turning wrong
Could've been a hundred reasons
I don't know how we got lost
I don't know how we get back
We're too far gone, don't wanna feel this

Distance between us
Distance between us
(Too far gone, too far gone)
Distance between us
Distance between us
(Too far gone, too far gone)

Baby, timing is a fine line
Between lovers and strangers
'Cause I'm lying here at night
Right next to you and I hate this
It ain't right, but it's like I'm out of sync
Out of everything we used to dream of
Now it's like we'll never be enough

Oh, I've been holding on too long
Too far gone, too hard to reach us
Turning right, turning wrong
Could've been a hundred reasons
I don't know how we got lost
I don't know how we get back
We're too far gone, don't wanna feel this

Distance between us
Distance between us
(Too far gone, too far gone)
Distance between us
Distance between us
(Too far gone, too far gone)

When we were apart
All I'd ever do is think about you
Syncopated hearts
I don't wanna feel this

Distance between us
Distance between us
(Too far gone, too far gone)
Distance between us
Distance between us

(Too far gone, too far gone)

Too far gone, too far gone

Too far gone, too far gone

The distance between us
